**Ex. 6 - Personal Privacy**

**Re:**

Thanks Joan. I'm on my way to Penn State and can't send the articles around but I did read the Scranton Times article. Good reporting but EPA comes across sounding confused

Several more articles out there stating that EPA "promised water delivery" -- as far as I know, EPA has not yet done so -- and I don't know the status.

The Times Tribune article below mentions a few add'l R3 staff making the calls...
